Owners Interest in Management of Horses

It has come to notice of the Stewards of the Club that numerous owners of race horses take little or no interest in the management of their horses and leave them entirely in the hands of their trainers.

The Stewards of the Club consider it essential to the conduct of clean racing that owners should interest themselves in the management of all horses owned or partly owned by them. No owner can completely divest himself of his joint responsibility with his trainers and jockeys for the running of his horses, and the Stewards of the Club hereby gives notice that in the event of any case of neglect of his duty coming to their notice, they may refuse to accept any entries from such persons.

Riding Out of Horses

Jockeys are reminded that all horses must be ridden out, not necessarily under the whip, to the satisfaction of the Stewards.

The Stewards will take action against jockeys who ease their horses out of a place when they find they are unable to win. Horses are not to be prevented from running on into places by jockeys dropping their hands before reaching the Winning Post.

Reckless Riding

The Stewards of the Hyderabad Race Club, warn all jockeys that reckless, careless and erratic riding will be dealt with severely.

PADDOCK

The Paddock is reserved only for Stewards, Officials and for owners, Trainers, Jockeys and attendants with horses actually running in the race.

The Stewards of the Hyderabad Race Club have decided that under the exemption Clause of Rule 144(c) of the H.R.C. Rules of Racing, applicants for horses to leave the paddock or to proceed to the post

other than in the normal manner, should ordinarily be made in writing to the Secretary of the Meeting on the day previous to the race.

Photo Finish

a) Trainers and Jockeys are hereby notified that in the event of the Judge calling for a photo-finish for the 1st place the horses involved in the photo finish instead of proceeding towards the unsaddling enclosure, shall parade round on the track near the entrance gate and the riders concerned will not dismount until called to their respective unsaddling stalls in accordance with the ultimate official placings declared by the Judges. The remainder of the field will, however, proceed towards the unsaddling enclosure and dismount in the normal way.

In the case of a photo-finish for the 2nd, 3rd and 4th places, the horses involved in the photo finish will be ridden, as usual, to the unsaddling enclosure and will proceed to a place set apart for such horses. The riders concerned, however will not dismount until called to their respective unsaddling Stalls, in accordance with the ultimate official placings. The remainder of the field will dismount in the normal way.

b) In connection with the above, the attention of Trainers, Jockeys and all persons concerned is drawn to Rule 178 (b) reading as follows for strict observances:-

"If a jockey or rider does not weigh in or if he touches (except accidentally) any person or thing other than his own equipment, after starting and before weighing in, he may be fined or suspended from riding at the discretion of the Stewards, and the horse he rode may be disqualified for that race unless he can satisfy the Stewards that he was justified by extraordinary circumstance. Provided that any portion of his equipments that he may have dropped after passing the winning post may be handed to him by the Clerk of the Course or an official of the club".

c) The horse involved in a photo finish will be announced over the Public Address systems immediately after the running of the race.

Horse/s that has to be led to the starting stalls must reach the starting point 5 minutes prior to the official race start time failing which necessary action will be initiated against the concerned trainer as deemed fit.
- Horses shall be loaded in their draw order regardless of any horse being a favorite or otherwise.
- Starter shall divide the field into two banks and load horses simultaneously in draw order within that bank of

runners. eg 9 runners divided into a bank of 5 runners (draws 1-5) and 4 runners (draws 6-9). In this example the horses drawn 1 and 6 would be loaded first.

- In fields consisting of 10 or more runners, horses will be divided into two banks and loaded simultaneously in draw order within that bank of runners. eg 13 runners divided into a bank of 7 runners (draws 1-7) and 6 runners (draws 8-13). In this example the horses drawn 1 and 8 would be loaded first.

- All horses will be given two chances for loading and in case of any horse/s cannot be stalled the horse/s will be withdrawn.

- Once the last horse is stalled it is the responsibility of the riders to be alert and ready for start and the starter will immediately dispatch the field.

Early Loading of Runners

Upon successful application to Stipendiary Stewards by the connections of a runner, a horse may be loaded into the starting stalls first, despite having drawn a wider gate (not in sequence of draw).

Where there is evidence of a horse/s having experienced loading difficulties previously, or illustrated some other form of misbehavior will be loaded first.

Late loading of a horse

Under no circumstances may approval be given to load a horse last or later than its prescribed order of loading.

Loading Horses with Front Gate Open

Due to its dangerous nature, the practice of loading horses with the front gate open is not recommended. However, under exceptional circumstances Starter may use his discretion in this regard.

Horses being reversed into starting stalls

The practice of horses being reversed into the starting stalls during morning trials and race meeting is not desired. However, under exceptional circumstances Starter may use his discretion in this regard and all such horses will be loaded first regardless of their draw.

Riders Dismounting Behind Starting Stalls

Riders may only dismount behind the starting stalls upon receiving permission from the Starter. Permission may also be granted in the circumstances of a gear adjustment

or a rider's safety being compromised due to his/her mount's fractious behaviour, in which case that horse should be loaded into the starting stalls without delay. If permission is granted for a horse to be loaded riderless, such rider may only dismount at the order of the starter immediately prior to entering the starting stalls.

Passing horses at Official Starting Stalls Trials

It requires a horse to have competed in an official starting stalls trial to the satisfaction of the Stipendiary Stewards/ Starter.

If a horse fails a starting stall test it will usually be required to satisfactorily complete two further successive starting stall trials prior to being passed.

- Horse must be tractable and able to be ridden satisfactorily to the starting stalls. When a horse/s is brought for starting stall trial the concerned trainer/ authorized person must be present at the starting stalls trail point.

An application for the starting stalls trial is a must at prescribed time and date with details of horse/s as per format.

- Horses may be assisted in the loading process only by being led into the starting stalls or having minimal encouragement by no more than two attendants positioned behind the horse.

- A horse must be loaded in a reasonable period of time. Horse/s coming for starting stalls trial must be accompanied by an experienced horse with a valid starting stall certificate.

- A horse must not be unduly fractious or unruly whilst held in the starting stalls and should be able to stand for atleast 2 minutes properly.

- A horse must jump away clearly and perform tractably out of the starting stalls.

- Subsequent to each trial the Starter shall report any unsatisfactory starting stalls performance to the Stipendiary Stewards. The Starter may also make any notification on

the Starters Report that will assist in the loading of any horse at a future trial or race.

By order of the Board of Stewards
